

2021 ACT-SO Season Is HERE!

Dear Educator,

The Akron NAACP is excited to announce the 42nd Annual ACT-SO Competition is underway! ACT-SO (Afro-Academic Cultural Technological Scientific Olympics) is a national achievement program for exceptional high school students to compete in six major categories: STEM, Humanities, Performing Arts, Visual Arts, Business, and Culinary Arts. Top finishers win prestigious awards, prize packages, scholarships, internships, and more! This, coupled with unparalleled networking opportunities with leaders of industry, academia, government, and the arts.

What once began as a needed platform to showcase exceptional African-American students, has transcended into a prestigious program open to ALL students of every ethnicity. All Summit County high school students are encouraged to participate -- area students will compete in the Akron program in April, with Gold Medal winners advancing to the National ACT-SO competition in July.

Summit County was home to three National medalists in the past 5 years...
YOUR campus could hold our next winner!

Please review the attached information and contact Tammy Monroe or Cynthia Peoples with any questions. You can find more information and online registration for students, mentors, and judges at www.AkronACTSO.com
