Middle School Flexibility Learning Days

June 1-3, 2021

Middle School Flexibility Learning Days is an individualized enhancement program added to the end of the school year for middle school students. The program is structured to offer the opportunity to relearn, retest, or enhance academic skills based on individual learning needs. Students that are in danger of retention will be invited for 3 days of intensive intervention to recover missed content and put them in a better position to pass for the year. Students that are on track are not expected to be here as a reward for their hard work all year long.
