Meadow View is an Artful Learning School. Artful Learning is a school improvement model that stimulates and deepens academic learning through the Arts. The four main quadrants of the Artful Learning model (EXPERIENCE, INQUIRE, CREATE, and REFLECT) encourage and support best teaching practices while improving the manner in which both students and teachers learn. Classrooms systematically employ the four quadrants to strengthen understanding, retention, and application. Be sure to check out our Artful Learning web page to learn more about how the arts are uniquely integrated into our curriculum.
