April 2018

Creating leaders, one child at a time!

A Note from Our Principal

We have two amazing employees who will be honored this weekend at the annual DCSD Apple Awards.

**Mrs. O’Keefe** is our registrar in the front office and the first face you see each day when you walk in the door. She is always friendly and knowledgeable. She works hard to ensure all of our new students have all the information they need to get started at our school. She knows all of our students, and makes sure they get ice packs, tooth fairy boxes, lost items, messages from parents, and, of course, a smile. We appreciate her everyday!

**Mr. Poland** is our 6th grade Discovery teacher at Acres Green. He is known for the many educational, fun, engaging projects he pursues with his students each year. Mr. Poland is also known to get out on the playground and participate in a game of football or basketball! It is clear that he has made an impact--many of his former students stop by to visit!

Thank you to Mrs. O’Keefe and Mr. Poland. We are lucky to have you at AGE! It is an honor to celebrate your accomplishments.
Thank you so much for all that you have done to make this year so great! As the school year comes to an end, we have some fun things planned! For the last quarter AR goal, students are reading their way to an Ice Cream Party!! The party will be May 18th in the cafeteria. In order to come, students need to meet their goals by May 16th and must have all of their library books returned. We are asking for donations for the party. If you are able to send in treats, or are interested in volunteering, please sign up at: tinyurl.com/ageicecream. Thank you for your help!

Our Makerspace supplies are running low. This is a space for students to get creative and use their imaginations. If you find any of the following supplies during your spring cleaning, we would love to add them to our collection:

- Clothespins
- Hot glue guns/sticks
- Tape
- Markers
- Glue
- Tissue Paper
- Styrofoam balls
- Popsicle sticks
- Rubber bands
- Miscellaneous Crafting Items

Library News

Survey

Dear Families,

As a Leader in Me Lighthouse School, we spend time each year reflecting on our culture and climate.

We are looking for your input to help us gain a community-wide perspective of our school.

Please consider taking ten minutes to fill out this survey. You can also fill it out on your phone by scanning the QR code below.

Your responses will contribute to our 360° view of Acres Green Elementary!

Thanks in advance!
Classroom Happenings

2/3 Discovery: Mrs. Azgur

Currently our class is working on a Poetry Unit. Students are learning all about the following types of poetry: acrostics, cinquains, clerihews, limericks, haikus, and concrete poetry. While learning about poetry, we are also focusing on figurative language which involves students making their own board game to play as a review of the different types of figurative language. In learning all about the different types of poetry students are writing their own poems for each type that they are learning about, and they will be making a poetry book that will contain all of their work.

Some of the field trips that we have attended so far have been to the Denver Zoo, the Earth Ball, and the Nature & Science Museum. We have two more upcoming field trips and they are: rock quarry tour and an iMax movie.

In Science, students recently created a brochure to answer the following prompt: You are a weather forecaster and have been chosen to report on the effects of weather and seasons on a local environment. Students used a template as a guide to complete their research. Then they used that research to create a brochure, which they will be presenting to their classmates.
Classroom Happenings

3/4/5 Discovery is a buzz with everything Colorado lately! We’ve been on field trips (to support our science and social studies curriculum) in and out of the building almost monthly since school started. Students have been researching and writing about the different regions and digging deeply into who traveled into this beautiful state and why. Famous Coloradans came to life in our Living Museum last month. Students are now designing and building a model of their own Boomtown for one of the regions they just studied. We’ll culminate our year with the Colorado Musical on May 10th. “Colorado, Colorado! It’s called the Centennial State!” It’s going to be a great performance with all of 4th grade!

Our 20-Time Projects before winter break were a huge success. Students created everything from a “Comma Rules” pamphlet, to a “Calm Down” book filled with jokes, calm down strategies, and blank paper for drawing/doodling. We taste-tested the ultimate homemade pizza for a better health choice instead of frozen pizza, and a student made a gadget that would hold shoelaces in place. These projects were real-world with the goal of empathy for others.

Team Building Activities are embedded in our school day. Students really enjoyed “Battle of the Airbands” where they were grouped and then performed for each other.
Continued 3/4/5 Discovery.

We started the year with our Solar Cooker Challenge to make the yummiest S’more! It was an all day affair and fun! It’s been a great year!
**Classroom Happenings**

**6th Discovery: Mr. Poland**

Our class is busy with a number of projects this time of year. Currently, the class is creating catapults out of 2 X 4s to launch either a tennis ball, lacrosse ball, or golf ball. Our unit began with students learning basic trigonometry terms and using sine, cosine, and tangent to create a blueprint of their catapult before constructing it out of wood. After assembling, the real fun begins as students launch and relaunch their catapults to fine-tune for accuracy. It’s a great culminating activity for our studies of physics.

We’re also preparing for a couple of geology related fieldtrips. We will walk 16th and 17th Streets in downtown Denver to observe and learn more about historic buildings like Union Station, Equitable Building, Boston Building, and Brown Palace.

Last, students will close out the school year with their final oral presentation. Students will come to school dressed in period costume of the famous Latin American whom they studied to present to the class. After presentations, we’ll enjoy lunch from a local Latin America restaurant.

---

**Jumpstreet Indoor Trampoline Parks Celebrate Kids of All Abilities**

April is National Autism Awareness Month but Jumpstreet celebrates kids of all abilities every month!

Jumpstreets across the country host a special semi-private event on the first Saturday of every month, including Saturday, April 7. Children with special needs and their siblings are welcome to enjoy the park one hour before it opens to the public. The private hour is from 9am to 10am.

Jumpstreet COO Mark Goldman says,

> Families have shared with us that their children with developmental challenges feel more confident in their play when the park is less crowded. We want all our young guests to have fun.

The special admission price for the monthly event is $8 for kids 5 years old and older and $4 for ages 4 and younger. The admission is for a two-hour pass.

For more info, please visit GotJump.com.
